

LED DRIVER 200W 24V not dimmable

Art nr: 115032

Product information

200 watt driver for 24V LED strips.

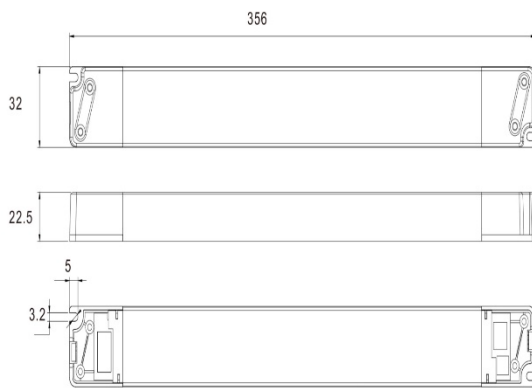

Ultra-thin driver that fits perfectly in small spaces.

Easy and fast connection.

The driver has built-in short-circuit, overvoltage, overload and temperature protection.

Dimensions

Specifications

Output voltage	24V DC
Operating voltage	100-277V AC
Power	200W
IP class	IP20
Protection	Short-circuit, overvoltage, overload and temperature protection
Amperage	8,3A
Dimmable	No
Product measurements	356 x 32 x 22,5mm
Certifications	CE, RoHS
Warranty	5 years

Used electrical and electronic products, including all types of batteries, must be delivered for recycling at a separate collection point. (acc. to directive 2012/19/EU and 2006/66/EC).
